

# THE IDEAL PIPING SOLUTION FOR MINING APPLICATIONS

## PRODUCT BACKGROUND

- Water management
- Conveying or drainage pipe
- River water diversion
- Sewer and sub-drainage systems
- Slurry and leachate lines

## PRODUCT OPTIONS

- 3/4" to 54" size availability
- IPS and DIPS available
- Thick wall capable for slurry
- FM 2" to 36" size available
- Stripes (including dual)

## PRODUCT FEATURES

- Exceptional chemical and abrasion resistance for aggressive materials (such as acids or salts)
- Leak-free joints joined using heat fusion on site
- Tolerance for variable operating conditions
- Exceptional toughness
- Long-term performance in demanding conditions
- Low installation and maintenance costs
- Lightweight and flexible
- Superior design life

# **THE IDEAL PRODUCER OF POLYETHYLENE PIPE IN NORTH AMERICA**

WL Plastics HDPE pipe provides durability to avoid the high cost of replacing or rehabilitating.

The piping safely delivers fluids without the leakage inherent with alternative piping materials.

The lighter-weight result in savings for shipping, handling, and installation. And the inner surface of WL Plastics HDPE pipe provides a low resistance to liquid flow, reducing pumping and operating costs.

The Company's best-in-class manufacturing processes and experienced production personnel help make WL one of the most efficient producers of HDPE pressure pipe. Close proximity to customers facilitates quicker response times and speed to market. WL Plastics continues to make investments in equipment to improve efficiency, productivity and throughput.
